Ch 1

Chapter 1 coursework check

Bring every item. Tick what you have; your teacher checks and signs.

Name _____

Class _____

COURSEWORK Tick one box per row

Item	I have it	Missing	Teacher ✓
Guided notes (one per lesson, stuck in or filed)			
Lesson S1 · 1A–1B Types of data; categorical data	☐	☐	☐
Lesson S2 · 1C–1E Histograms, dot plots and stem plots; log scales	☐	☐	☐
Lesson S3 · 1F Centre and spread: median, quartiles, IQR, mean and standard deviation	☐	☐	☐
Lesson S4 · 1G Five-number summary, boxplots and outliers	☐	☐	☐
Lesson S5 · 1H–1I Normal distribution, z-scores; populations and samples	☐	☐	☐
Bound reference entries (one per lesson)			
1A–1B entry	☐	☐	☐
1C–1E entry	☐	☐	☐
1F entry	☐	☐	☐
1G entry	☐	☐	☐
1H–1I entry	☐	☐	☐
CFATs (completed, corrected in a different colour)			
CFAT 1.1.1 · Types of data, displays, log scales	☐	☐	☐
CFAT 1.1.2 · Describing numerical data: median, IQR, boxplots, SOCS	☐	☐	☐
CFAT 1.1.3 · Mean and SD, the normal distribution, z-scores	☐	☐	☐
Homework (VCAA homework booklet, one sheet per subchapter)			
Sheets 1A, 1B, 1C, 1D	☐	☐	☐
Sheets 1E, 1F, 1G, 1H	☐	☐	☐

WHAT I WILL DO TO CATCH UP by the date below

Student signature _____ Date _____

Teacher signature _____ Catch-up due _____

CHAPTER 1 TEST · SUCCESS CRITERIA

Teacher ticks when marking the chapter test

Each success criterion is tested by the question(s) listed. ✓ = shown on the test · × = not yet (revise before the SAC).

Sub	Success criterion	Test Q	✓	×
1A	I can identify types of data.		☐	☐
1B	I can construct a frequency table for categorical data.		☐	☐
	I can construct a bar chart from a frequency table.		☐	☐
	I can construct a percentage segmented bar chart from a frequency table.		☐	☐
	I can describe the distribution of a categorical variable.		☐	☐
1C	I can construct a frequency table for discrete numerical data.		☐	☐
	I can construct a grouped frequency table.		☐	☐
	I can construct a histogram from a grouped frequency table.		☐	☐
	I can describe the features of a distribution from a histogram.		☐	☐
1D	I can construct a dot plot.		☐	☐
	I can construct a stem plot.		☐	☐
1E	I can use a CAS calculator to find logs.		☐	☐
	I can interpret a histogram with a log scale.		☐	☐
1F	I can find the median value in a data set.		☐	☐
	I can find the median value from a dot plot.		☐	☐
	I can find the median value from a stem plot.		☐	☐
	I can find the range from a stem plot.		☐	☐
	I can find the IQR from a stem plot when n is even.		☐	☐
	I can find the IQR from a stem plot when n is odd.		☐	☐
	I can calculate the mean using the formula.		☐	☐
	I can calculate the mean and standard deviation using the CAS calculator.		☐	☐
1G	I can construct a boxplot from a five number summary.		☐	☐
	I can construct a boxplot with outliers from data using the CAS calculator.		☐	☐
	I can read values from a boxplot.		☐	☐
	I estimate percentages from a boxplot.		☐	☐
	I can use boxplots for describe a distribution without outliers.		☐	☐
	I can use boxplots to describe a distribution with outliers.		☐	☐
	I can use boxplots to answer statistical questions.		☐	☐
1H	I can apply the 68-95-99.7% rule.		☐	☐
	I can calculate standardised scores.		☐	☐
	I can use standardised scores to make comparisons.		☐	☐
	I can use standard scores to determine percentages.		☐	☐
	I can convert standardised scores into actual scores.		☐	☐
	I can solve for the values of the mean and standard deviation.		☐	☐
